Digitalized Photographs Preserved for Future Generations

How many of us have boxes or albums full of old photos that Grandmother left us just sitting in a cupboard or stashed somewhere in the attic? You keep thinking that one day you will get all of this stuff organised but for various reasons you just never get around to it. The truth is that most of us never do.

These family treasures sit in the closet, get passed down and around, until finally no one in the family knows who those people are or where the photograph was taken. Eventually they get thrown out and they are lost to the family forever.

AfricanScrapbook offers a unique way to organise, record and preserve your family photographs for future generations whilst turning all of those old photographs into money by digitalizing each image and offering copies of them for sale on the Internet.

Not only that, as each photograph is annotated with a description of the place where the photograph was taken and/or name of the person or persons appearing in the image, its historical significance is retained forever.

AfricanScrapbook digitalizes your photographs and stores them for you on a secure website which is not only accessible by your family but also customers who may wish to purchase a copies of your stock photography. Book publishers, authors, speciality publishers, magazines, advertising agencies, filmmakers, web designers, graphic artists, interior decor firms, corporate creative groups, and other entities utilize stock photography to fulfil the needs of their creative assignments. By using stock photography instead of hiring a photographer to perform on location shooting, they can save valuable time and a considerable amount of money.

For each photograph downloaded, you receive a commission based on the price of the image sold to the customer. You will be paid a 60% of the actual price for every image sold each month payable to any account of your choice.

With prices ranging from between \$35 - \$250 per image, you will realise a source of revenue that you never knew existed! So, instead of your photographs gathering dust in some dark closet, you can quickly turn them into a valuable financial asset.

So not only do you get all of your photographic albums digitally preserved for the enjoyment of future generations, but you retain full copyright protection at all times and get paid for it.

It costs nothing to join AfricanScrapbook and there are no penalties whatsoever from cancelling your membership. You can withdraw some or all of your images from AfricanScrapbook at anytime and for any reason.

It's that easy.

Furthermore, your AfricanScrapbook membership is an invaluable, sustainable asset whereby all revenue derived from future sales of copies of your photographs can be inherited by your family for their ongoing benefit.

If you, or any member of your family would like to learn more about the substantial benefits of becoming an AfricanScrapbook member, please email, [info@africanscrapbook.com](mailto:info@africanscrapbook.com) for further information.

It will possibly be the best legacy you make on behalf of your Grandmother, her Grandmother and all of the rest of the Grandmothers yet to come...
